A Round Up

the position of some major projects

Murals

There is damage to some of the murals on the north wall of the chancel. The roof above the chancel has been repaired. We are waiting for the wall to dry out and are gathering quotations for the repainting

Church Porch and front door

The main entrance doors were grating on the glass panel above. The doors have been removed and temporary wooden doors installed. The outer porch is being supported with jacks. A structural survey has been obtained. The results are being examined to decide on a solution.

Twinkles Go Large

The building of the project is all but complete. The fund raising paid for the work in the narthex. There will be money left over from the whole project.

Lighting Project

The design and faculty are all in place. The current quotation is being examined for value. There may well be money available to have the installation complete over the Summer.

Notice boards

The boards at the back of church have been replaced during the reorganisation of the back of the church and the porch. An application for a faculty is going to be made for the notice boards on College Road to be replaced.

Grace Cafe

This was launched last November and is well supported both with volunteers and guests.

Director of Music

A second advertisement did not attract any candidates. The choir are content to look after the arrangements for their music.
