

LIGHTING UPDATE **October 2019**: Installation of the new LED lighting is scheduled to start on 7th October and is expected to take four or five weeks. During working hours the church will not be open for routine tasks – this will be Mondays to Fridays between 8:00 am and 4:00 pm. The Grace Café will not open in October until work is finished. Normal events can take place in the evenings and at weekends. We have asked them to provide protection for the organ and piano during their work. We also plan to ask the contractors to improve wiring for the power supply to the ‘Grace Café’. Total costs will be about £45,000. We are very grateful for the hard work, clever fundraising and generous donations which have brought in nearly £30,000 (including tax recovery) so far. The PCC has agreed to fund the balance but it has other needs and has recently suffered financial deficits. Further donations would be very welcome. Please contact John Beale, Alan Keeler. Peter Fall or one of the Churchwardens if you wish to know more.
